

OUR COMMITMENT

The Valiant Group and partnering companies are totally committed to, and actively participate in, the ongoing process of quality improvement, reliability, maintainability and durability.

Incomplete Work Shipping to Valiant

Dear Valued Supplier,

Please ensure that all parts are sent to Valiant Machine & Tool as per provided print, purchase order and/or scope of work in totality. If an extenuating circumstance arises wherein a Valiant team member requests parts or any other equipment or service to be delivered in an incomplete state, please ensure that a Valiant Specification Deviation Form (VCH4-0016) is completed and approved. This signed off form must be provided with shipping documentation upon receipt. This may include requests to send material without paint, black oxide, heat treating, nickel plating, or with incomplete assembly of tools and equipment.

Going forward, any material that is sent to Valiant that is not complete as per print, purchase order, and/or scope of work will be back charged accordingly unless written authorization is provided via an approved Valiant Specification Deviation VCH4-0016 Form.

For more information, please contact your Quality Department Representative.
